Recommendations

Introduction

Location: based in the Taxham district of Salzburg, Austria.

Markets: Operates in Austria, Italy, Slovenia, Hungary, and Croatia.

Prominence: Leading position in Austrian food retailing.

Global Presence: 13,900+ stores in over 48 countries on four continents.

Geographical Reach: Business operations in Europe, Asia Pacific, the Middle East, and Africa.

Multi-format strategy: SPAR adapts to diverse customer needs.

E-commerce: Offers products through online platforms.

Ownership Structure: About half of Spar supermarkets, Eurospar stores, and Spar Express petrol stations are managed by self-employed retailers.

Supply Chain: Self-employed retailers source their goods from Spar wholesalers.

Store Formats

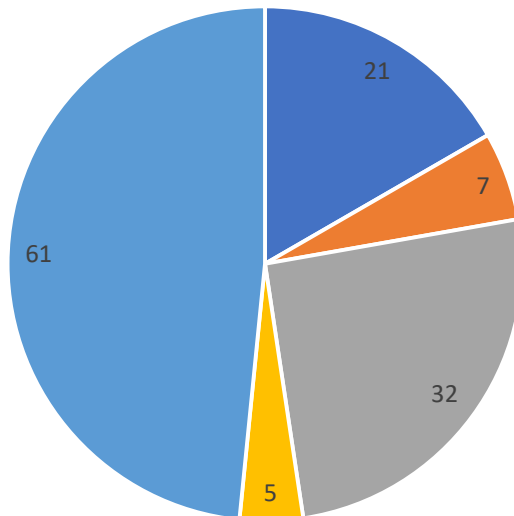

Segment	Store Type	Notes
Small	Spar Express gas station	• Designed for busy transit hubs • e.g. petrol station, airports, railway stations • Sales area of between 100 and 300m²
Middle	Spar Supermarkets	• Designed for urban and rural communities • Provide essential daily items • Sales area of 200 to 1,000m²
Large	EuroSpar	• Formatted to fulfil weekly shopping needs • Consists of 1000 to 3000m² sales area. • Attractive > parking space.
	Super Spar	• Fresh foods, non-foods and groceries options to the customers • Food-to-Go is a good choice for a weekend shopping trip.
Mega	INTERSPAR Hypermarket	• Comprises 3000m² sales area. • Acts as standalone large shopping centers • Largest selection of food and non-food items.
New Customer no		This is the new segment that we found in the data set. Spar has to decide in which segment new customer no had to fall depending upon the sales.

Segment wise Sales

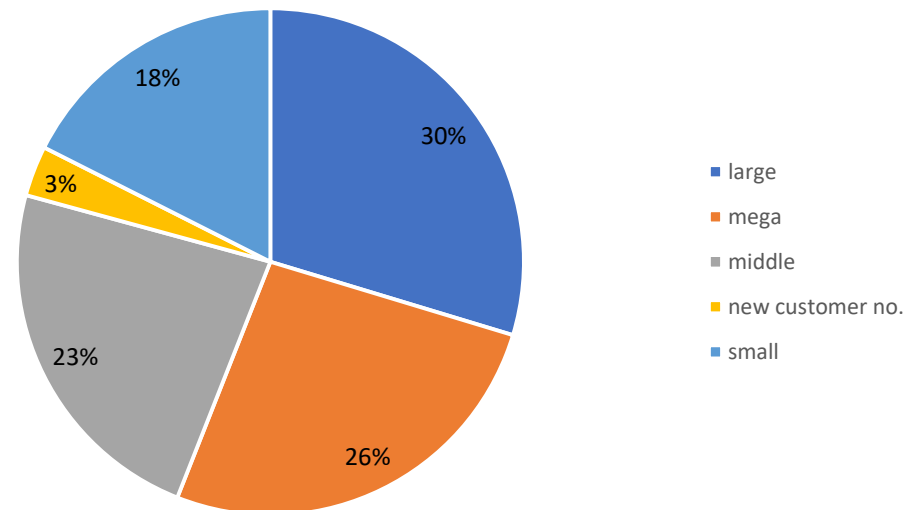

Selected Group products

- Wine
- Sweets
- Cosmetics

Number of Stores in each Segment

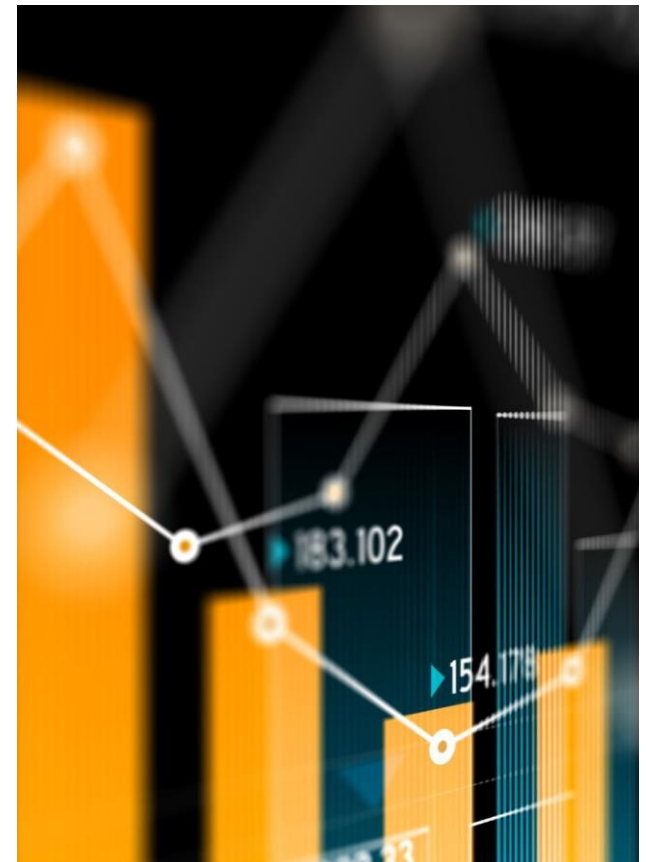

Total Sales of Wine, Sweets, Cosmetics

Research Queries

- How can we improve the performance of individual segments?
- Is there a correlation among the specified product groups?
- How to Enhance the seasonal product strategy for optimized order and demand patterns.
- Analyze negative and missing data within the dataset.

Seasonal Analysis

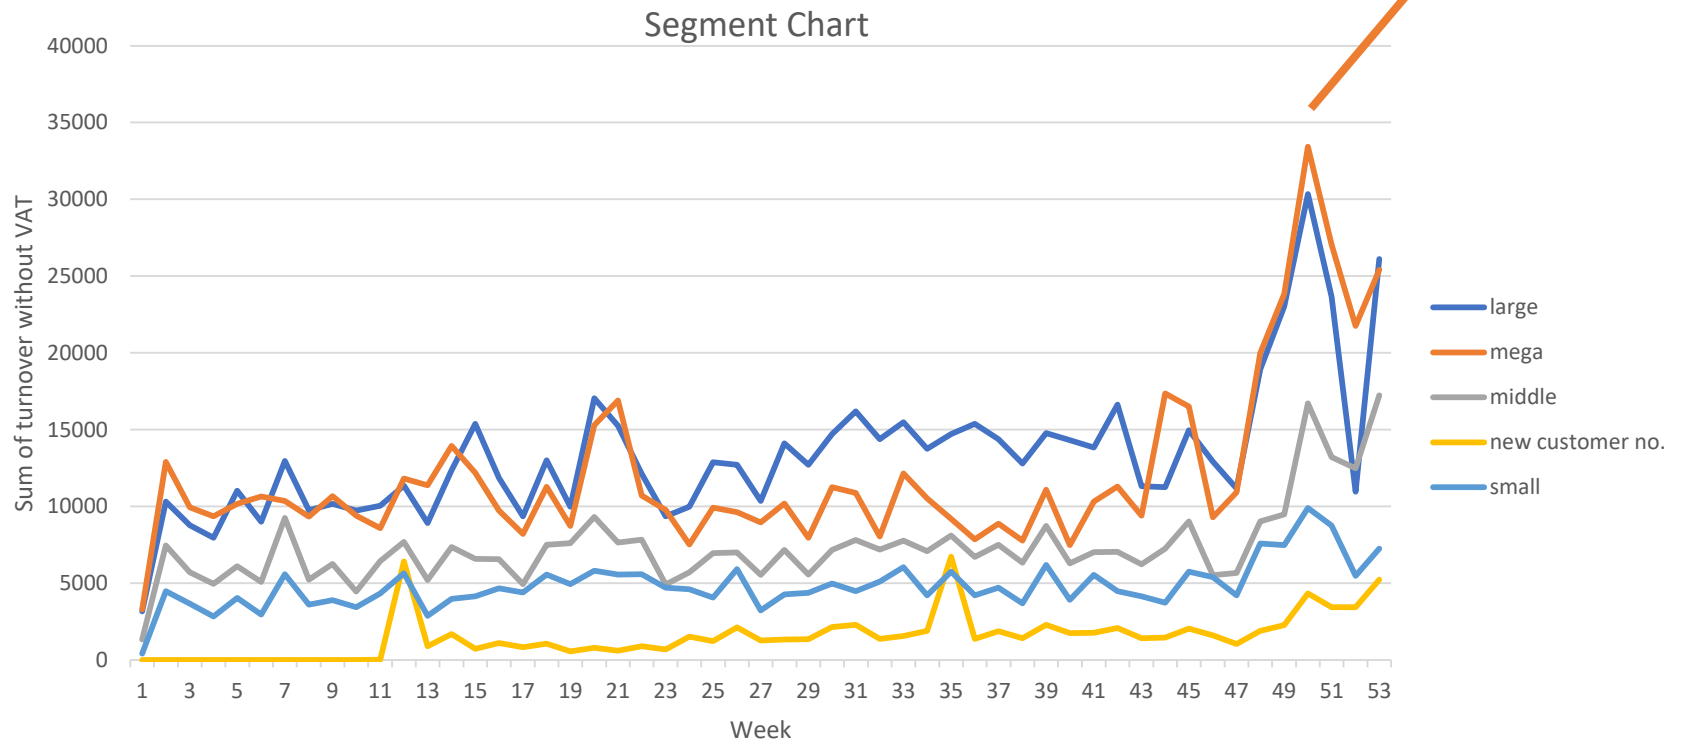

Objective

Identification of seasonal patterns or trends in sales to help with inventory management and resource allocation.

Seasonal Analysis

1st product: Wine

December 2009						
	Mo	Tu	We	Th	Fr	Sa
49	30	1	2	3	4	5
50	7	8	9	10	11	12
51	14	15	16	17	18	19
52	21	22	23	24	25	26
53	28	29	30	31	1	2

Seasonal Analysis

2nd product: Sweets

February 2009

	Mo	Tu	We	Th	Fr	Sa	Su
05	26	27	28	29	30	31	1
06	2	3	4	5	6	7	8
07	9	10	11	12	13	14	15
08	16	17	18	19	20	21	22
09	23	24	25	26	27	28	1

October 2009

	Mo	Tu	We	Th	Fr	Sa	Su
40	28	29	30	1	2	3	4
41	5	6	7	8	9	10	11
42	12	13	14	15	16	17	18
43	19	20	21	22	23	24	25
44	26	27	28	29	30	31	1

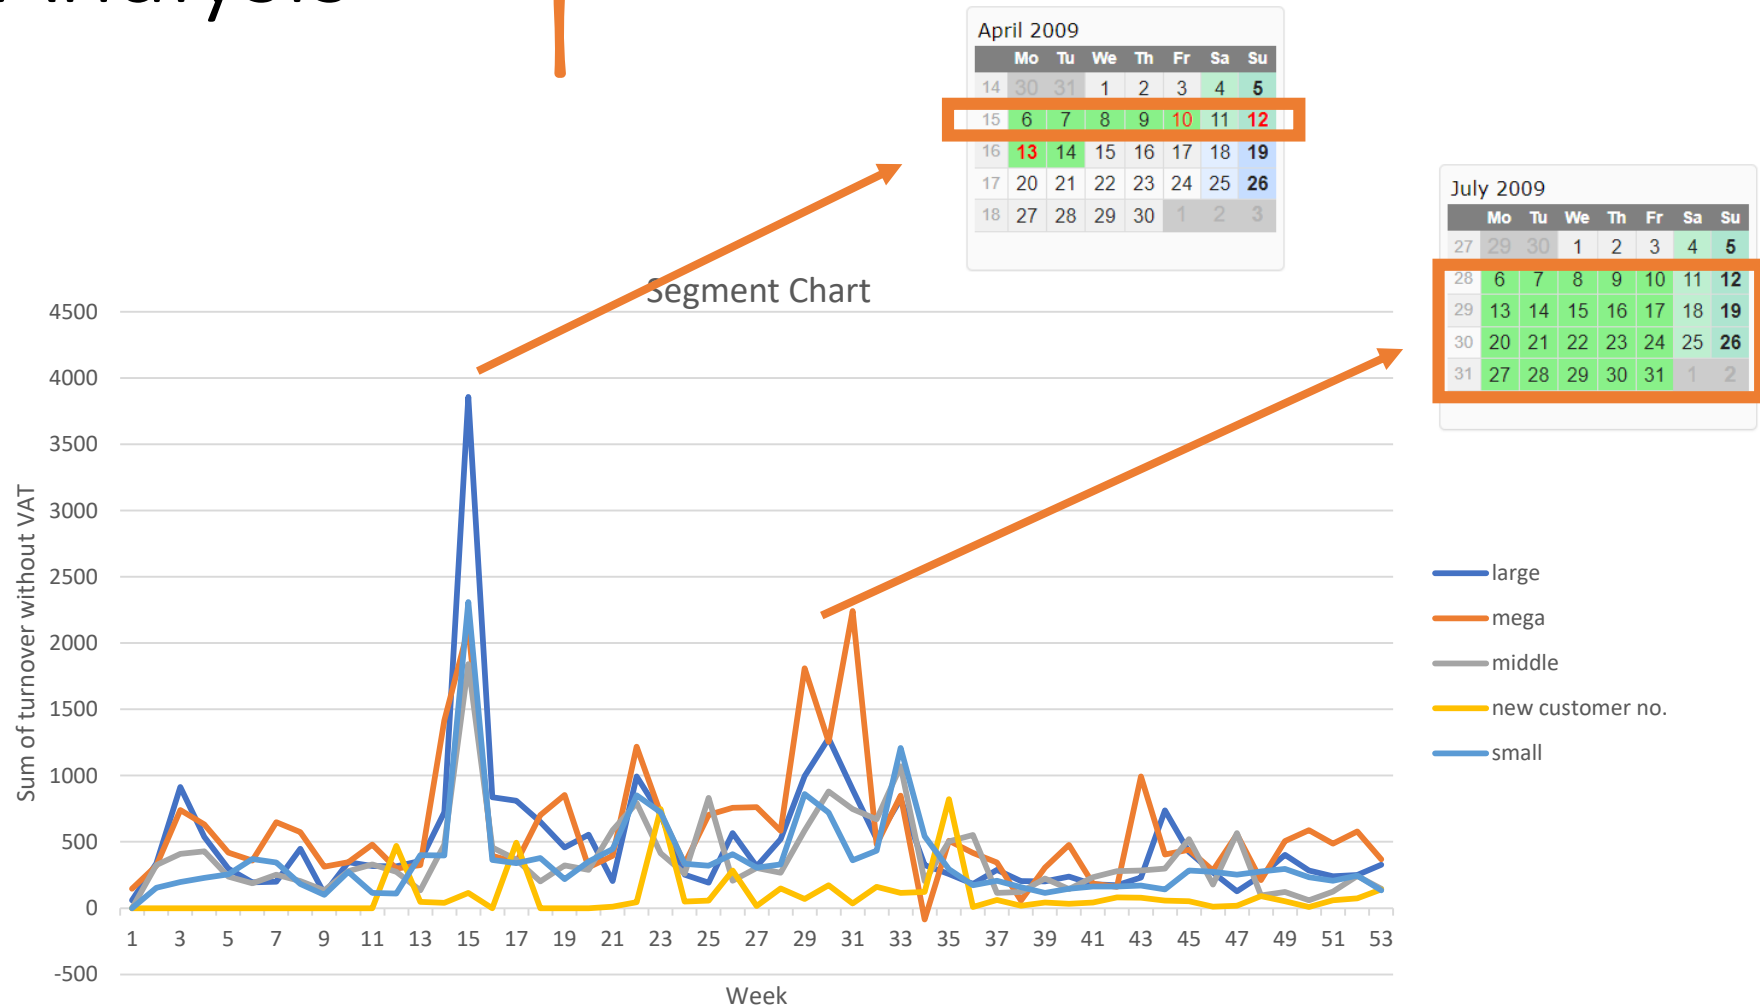

November 2009

	Mo	Tu	We	Th	Fr	Sa	Su
44	26	27	28	29	30	31	1
45	2	3	4	5	6	7	8
46	9	10	11	12	13	14	15
47	16	17	18	19	20	21	22
48	23	24	25	26	27	28	29
49	30	1	2	3	4	5	6

Seasonal Analysis

3rd product: Cosmetics

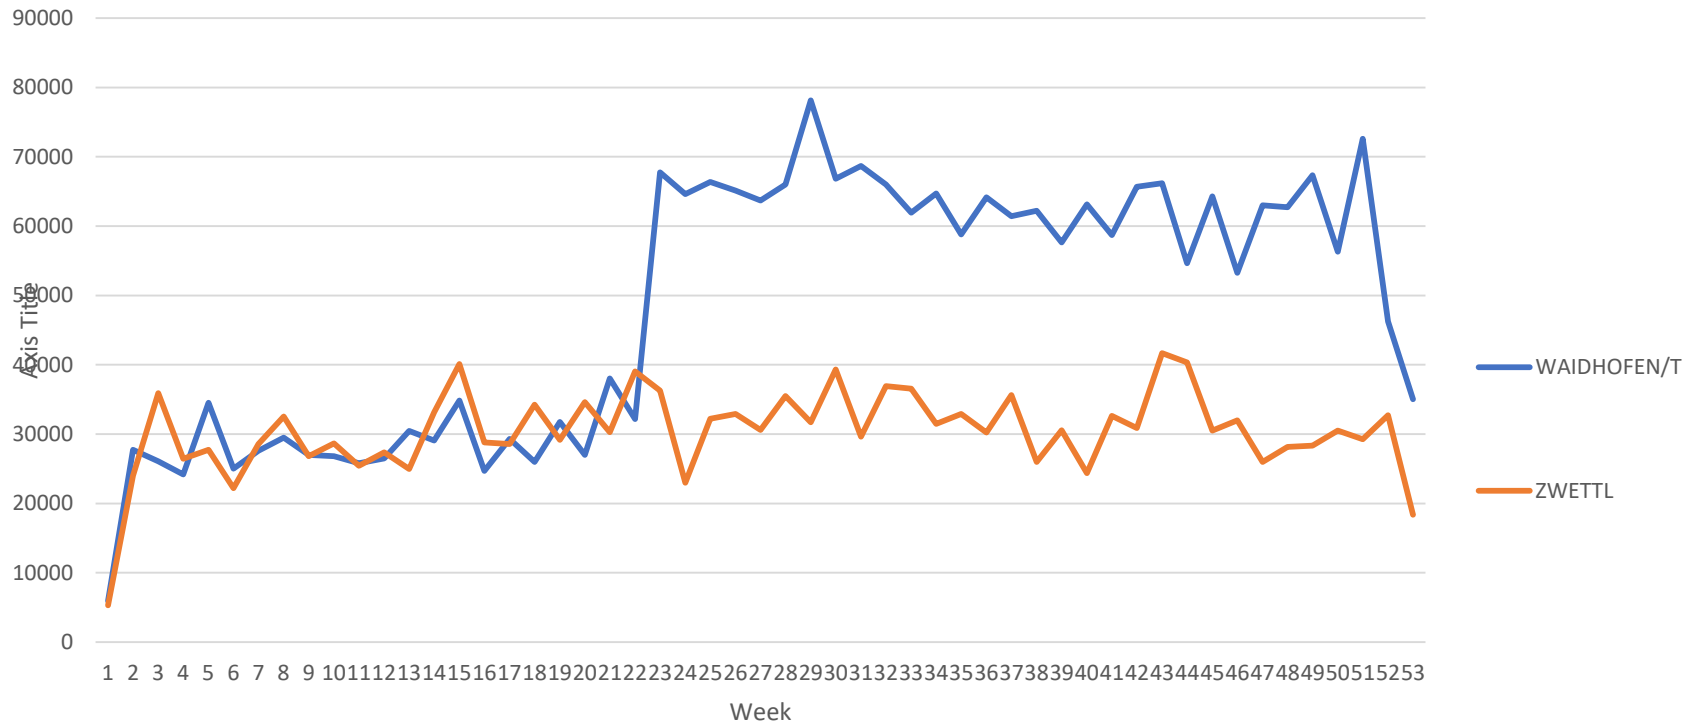

Geographic Analysis

Objective

Analyze sales data by region to identify geographic areas with strong or weak performance.

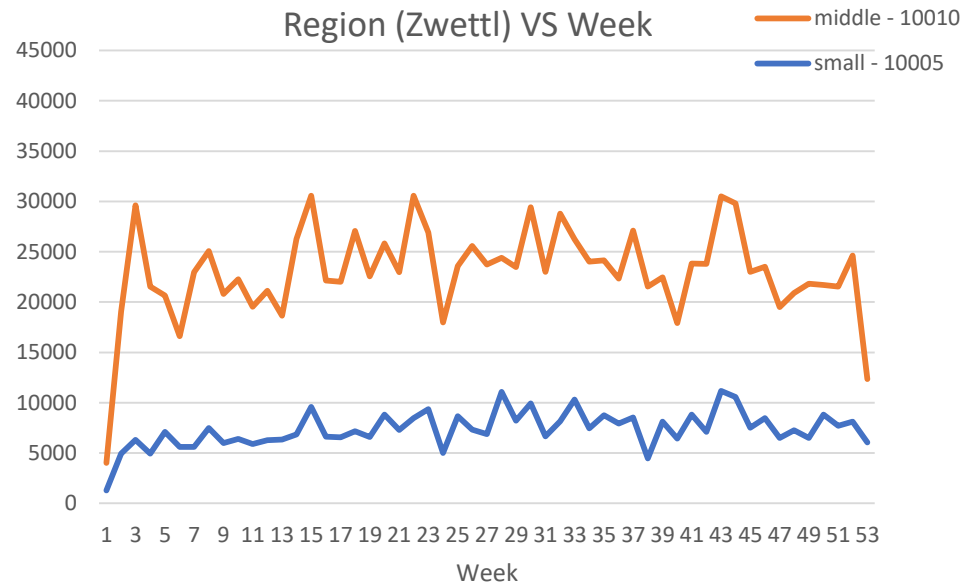

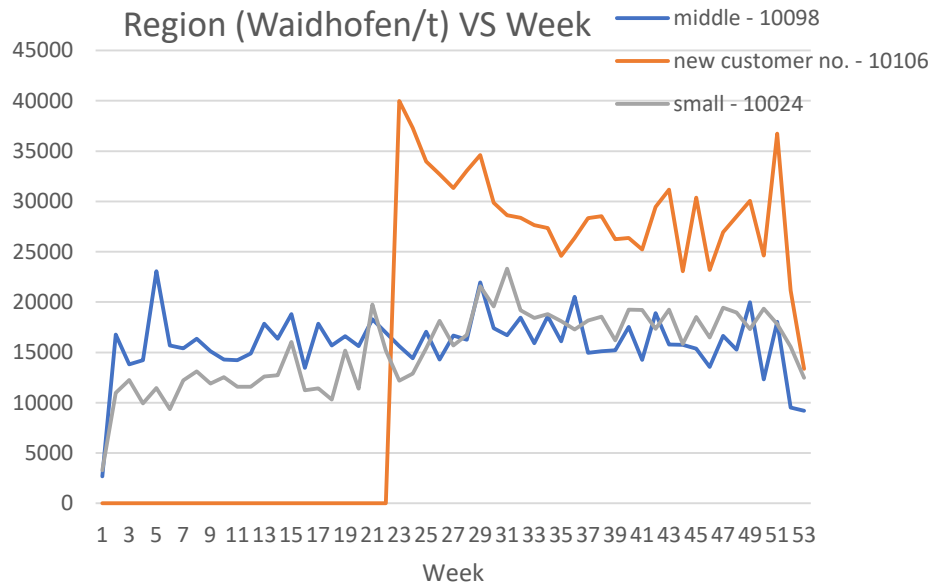

Geographic Analysis

Product Group: Total Zwettl and Waidhofen/t vs Week

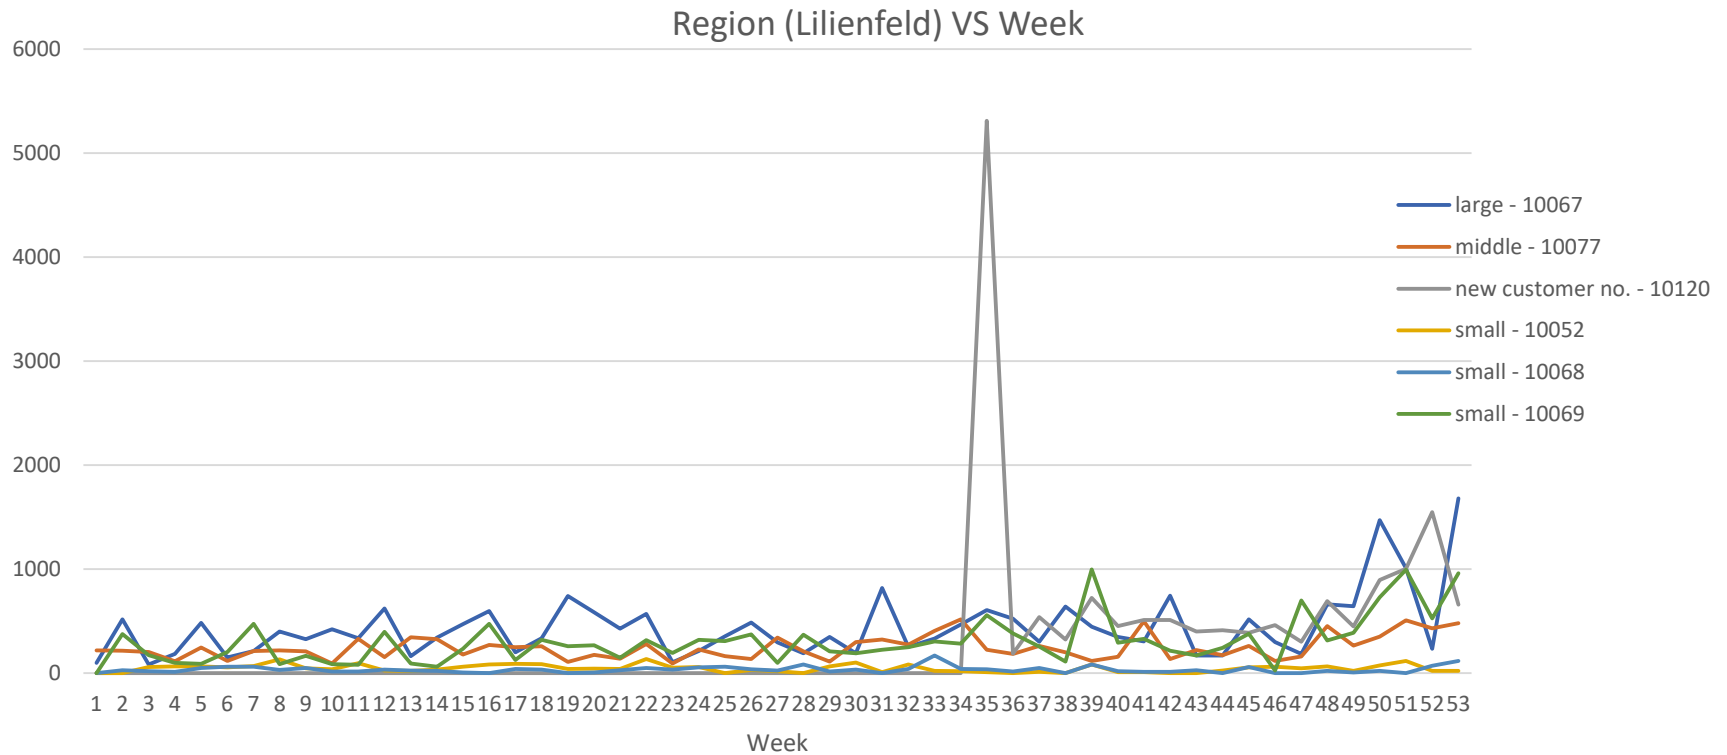

Geographic Analysis

Product Group: Total Waidhofen/t and Zwettl vs Week

Geographic Analysis

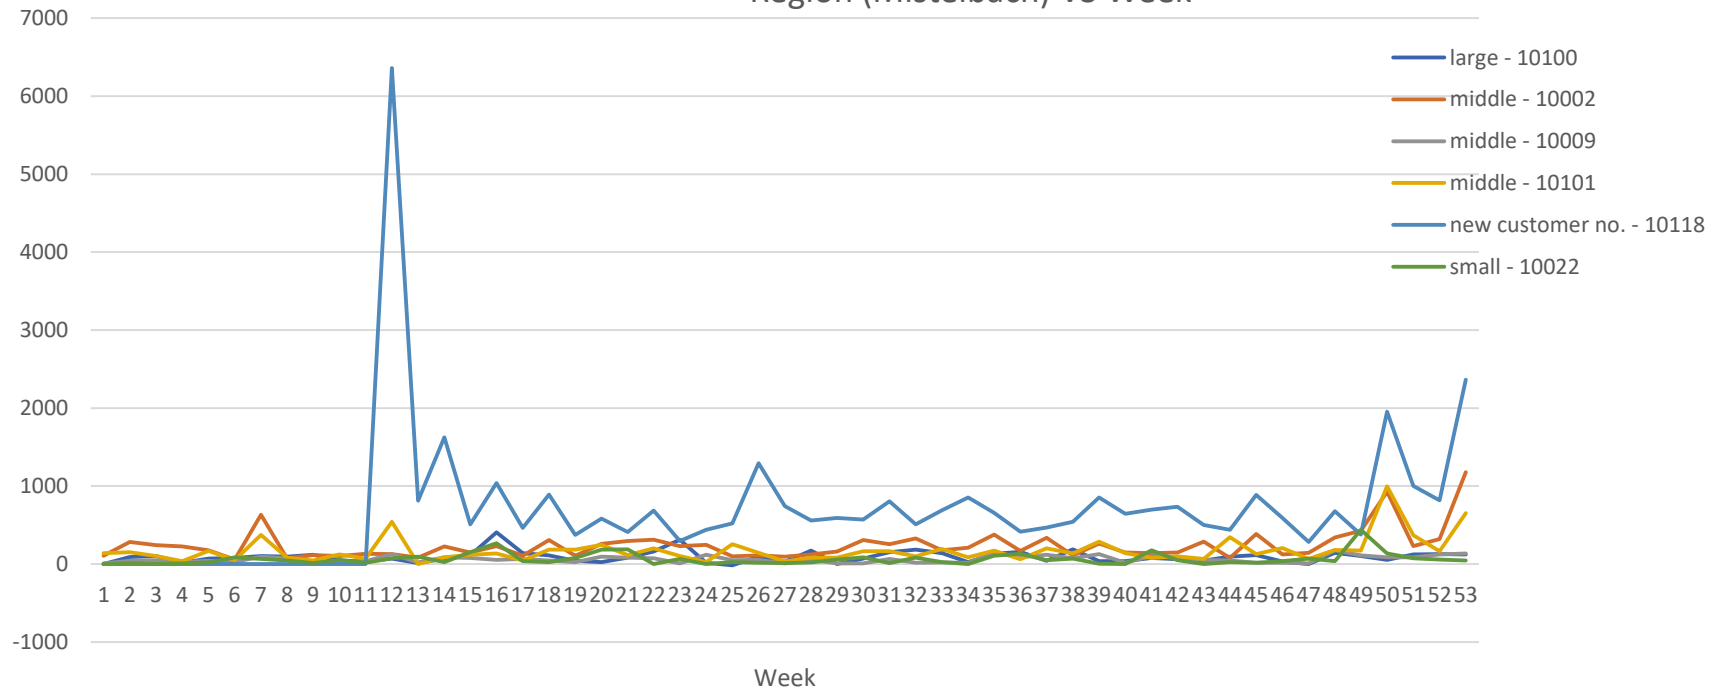

1st product: Wine - Lilienfeld

Geographic Analysis

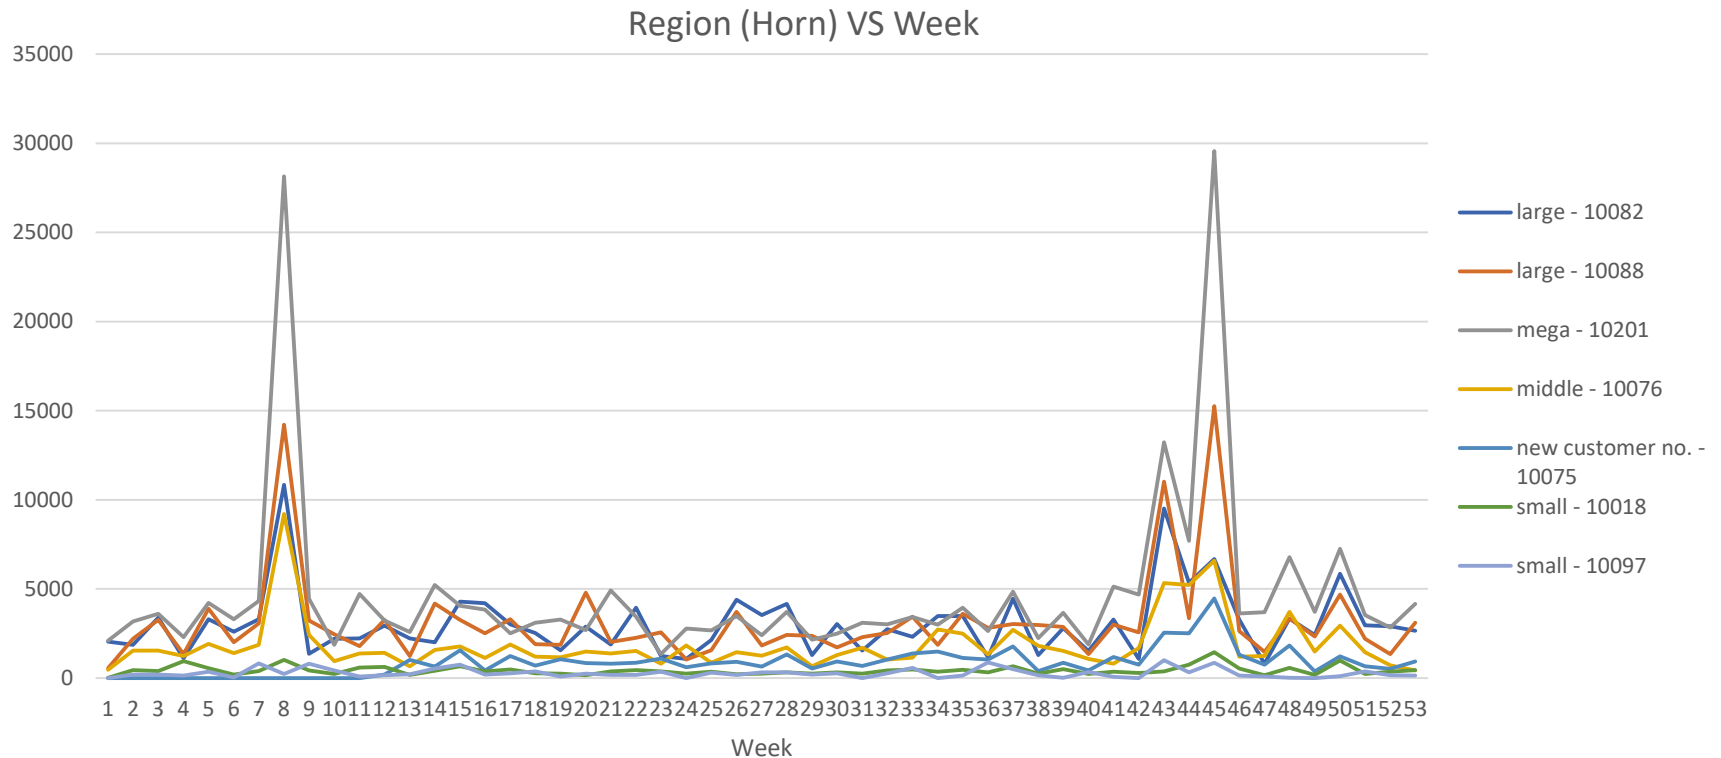

1st product: Wine - Mistelbach

Region (Mistelbach) VS Week

Geographic Analysis

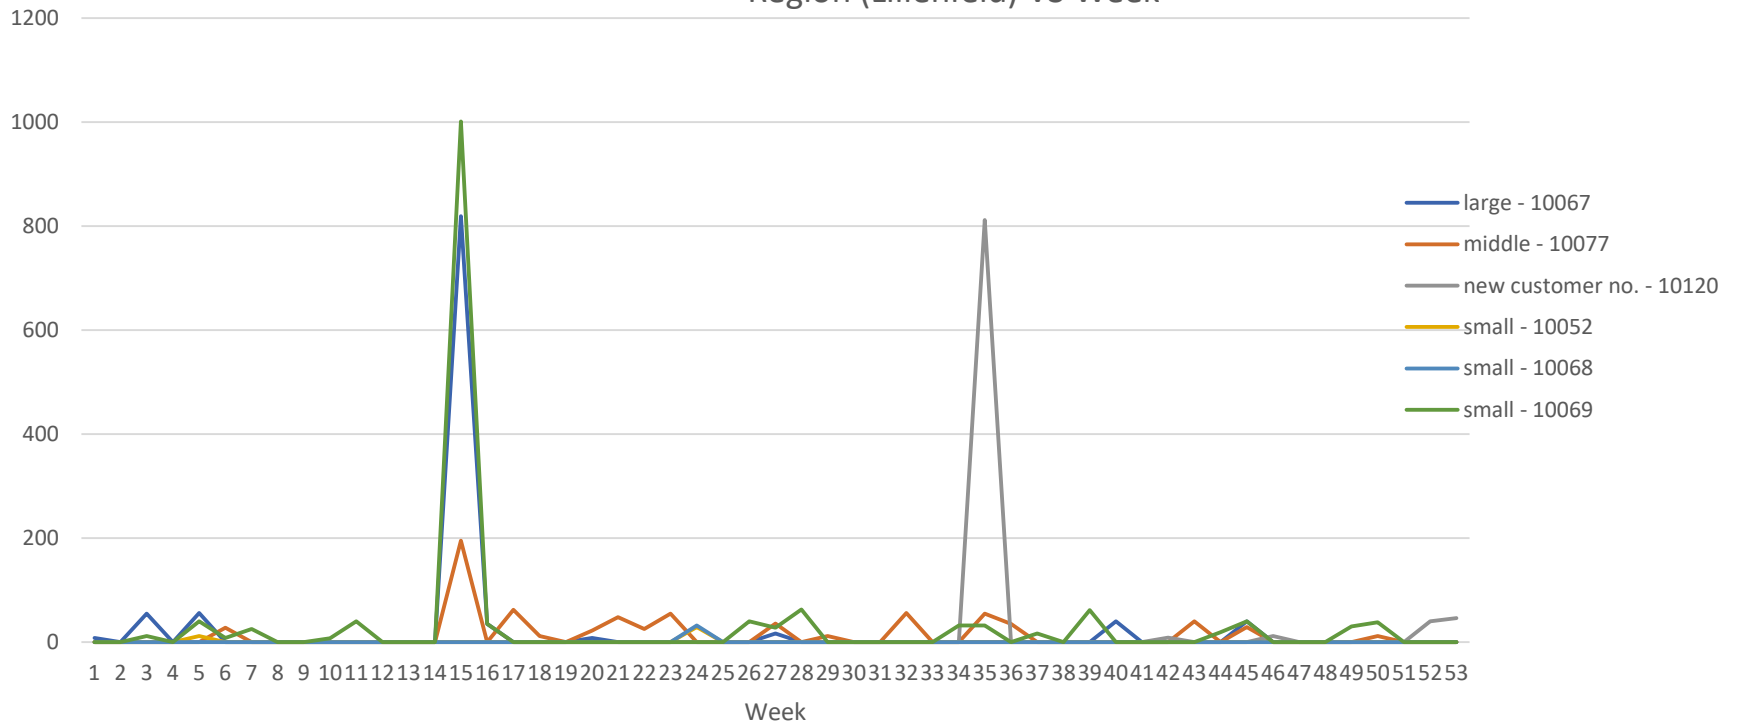

2nd product: Sweets – Horn

Geographic Analysis

2nd product: Cosmetics – Lilienfeld

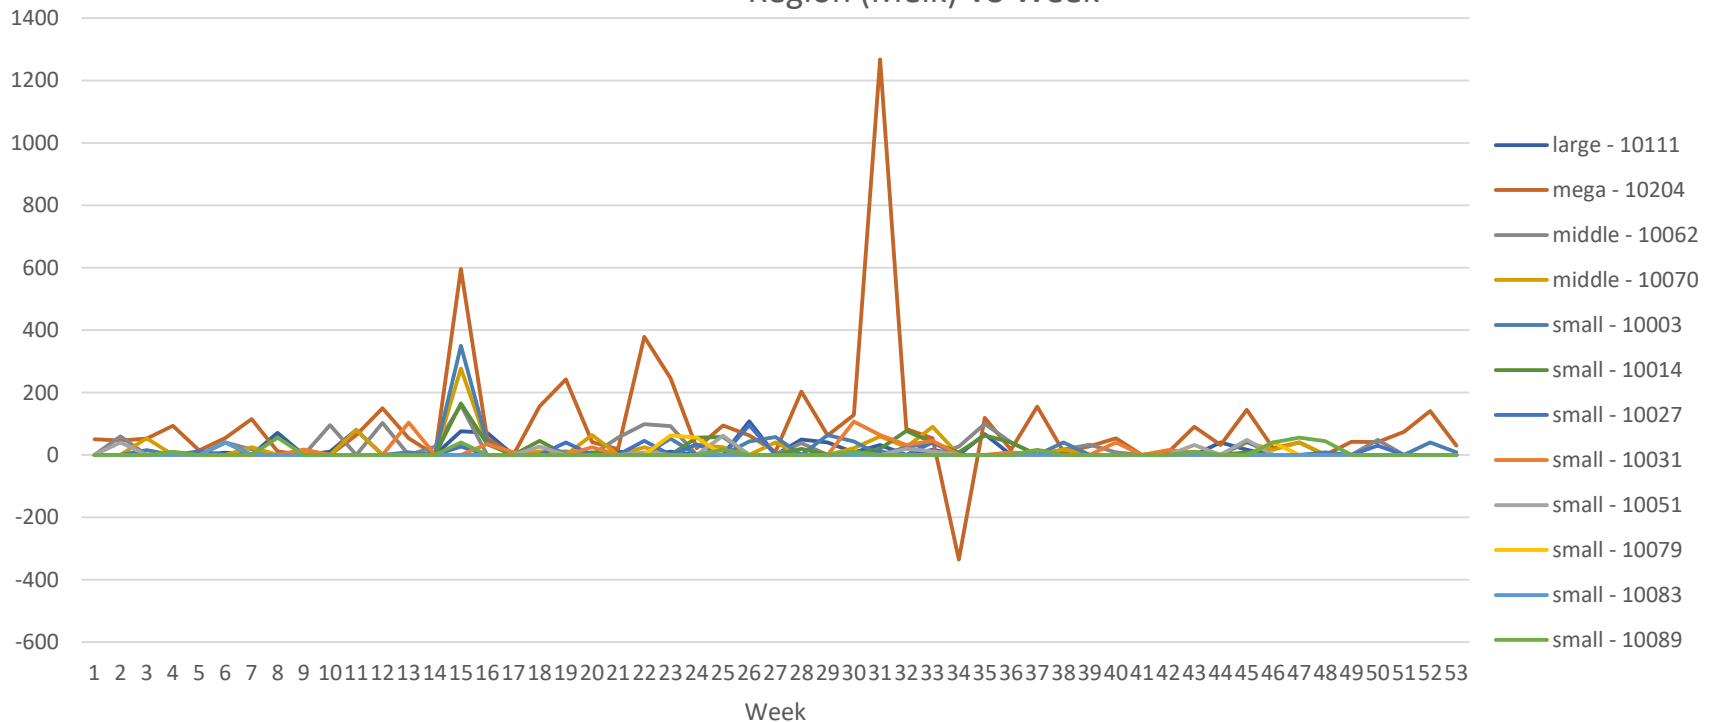

Region (Lilienfeld) VS Week

Geographic Analysis

2nd product: Cosmetics – Lilienfeld

Region (Melk) VS Week

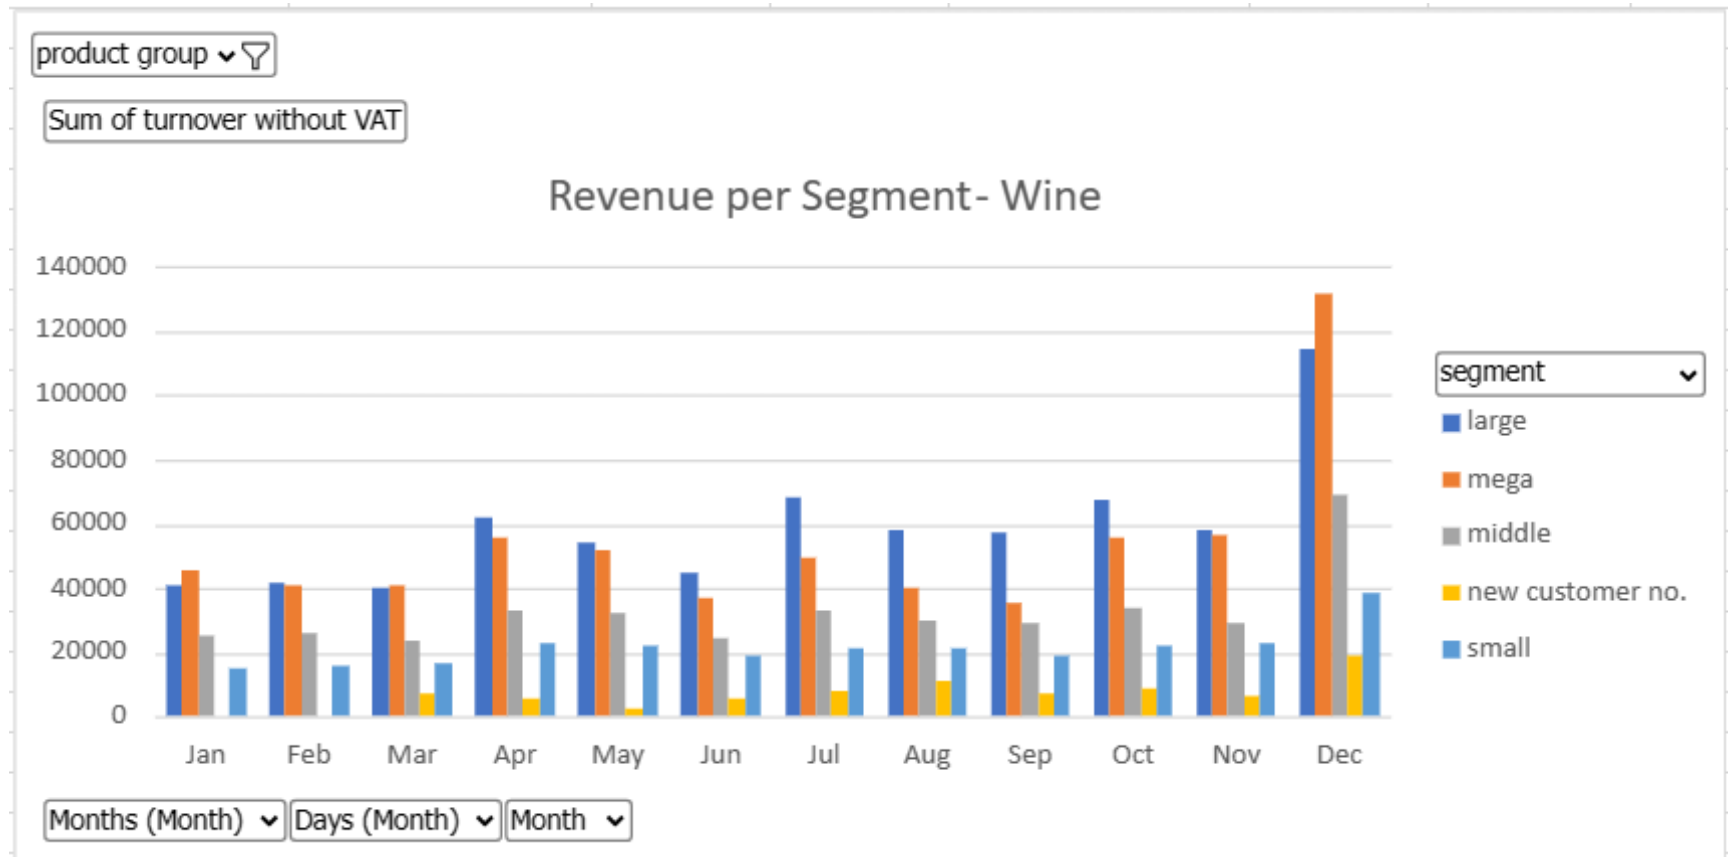

Revenue Trend Analysis

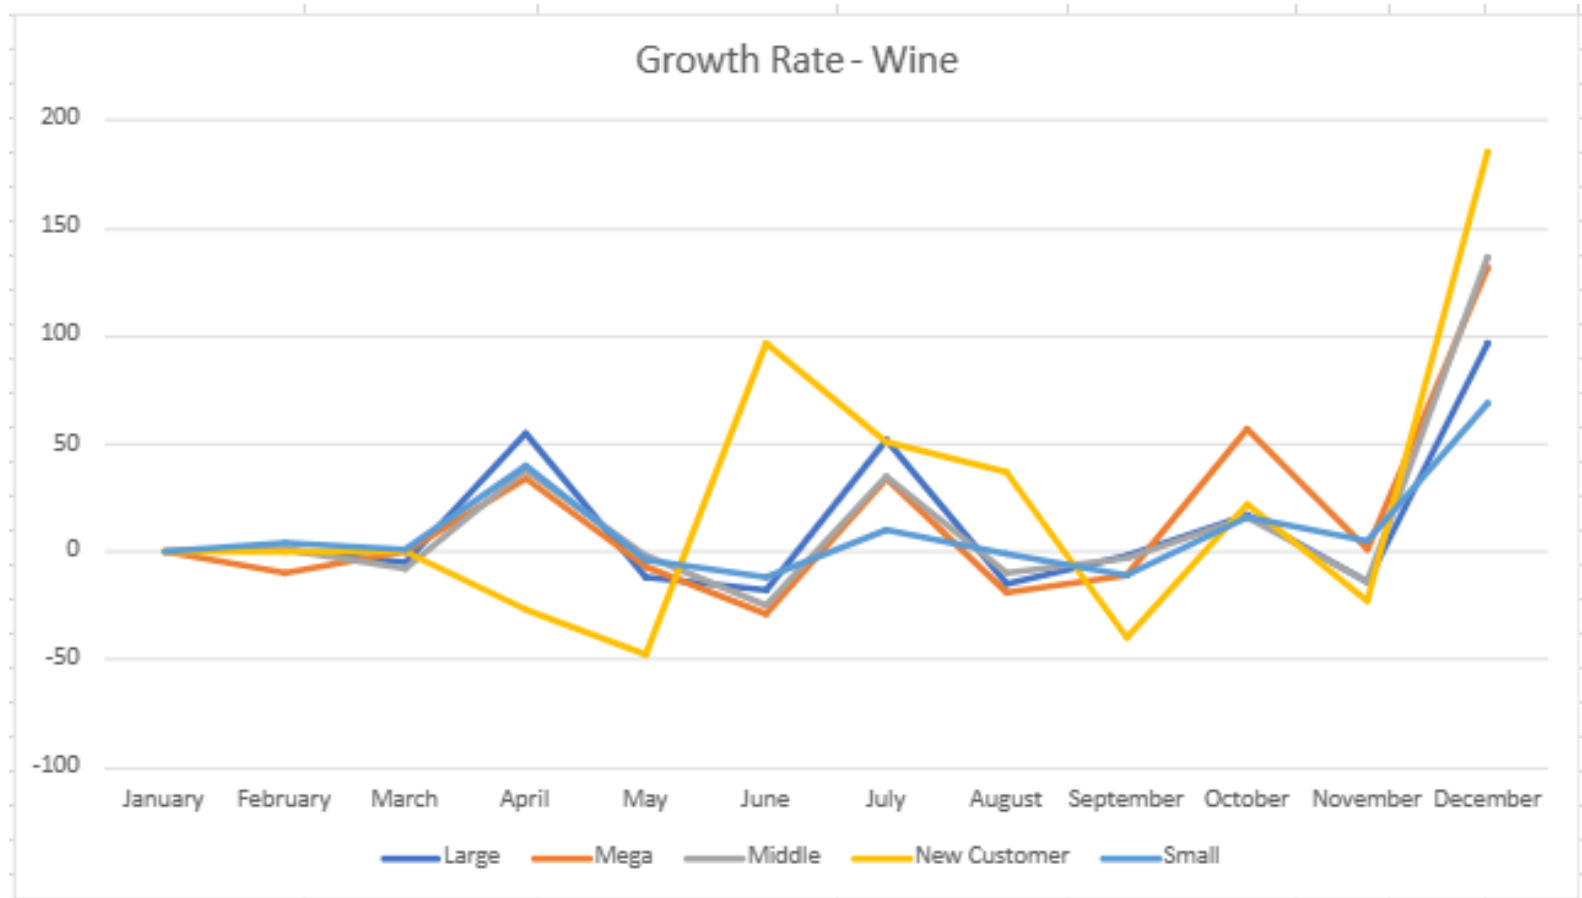

Objective

Examine the overall trend in annual revenue to identify growth or decline patterns.

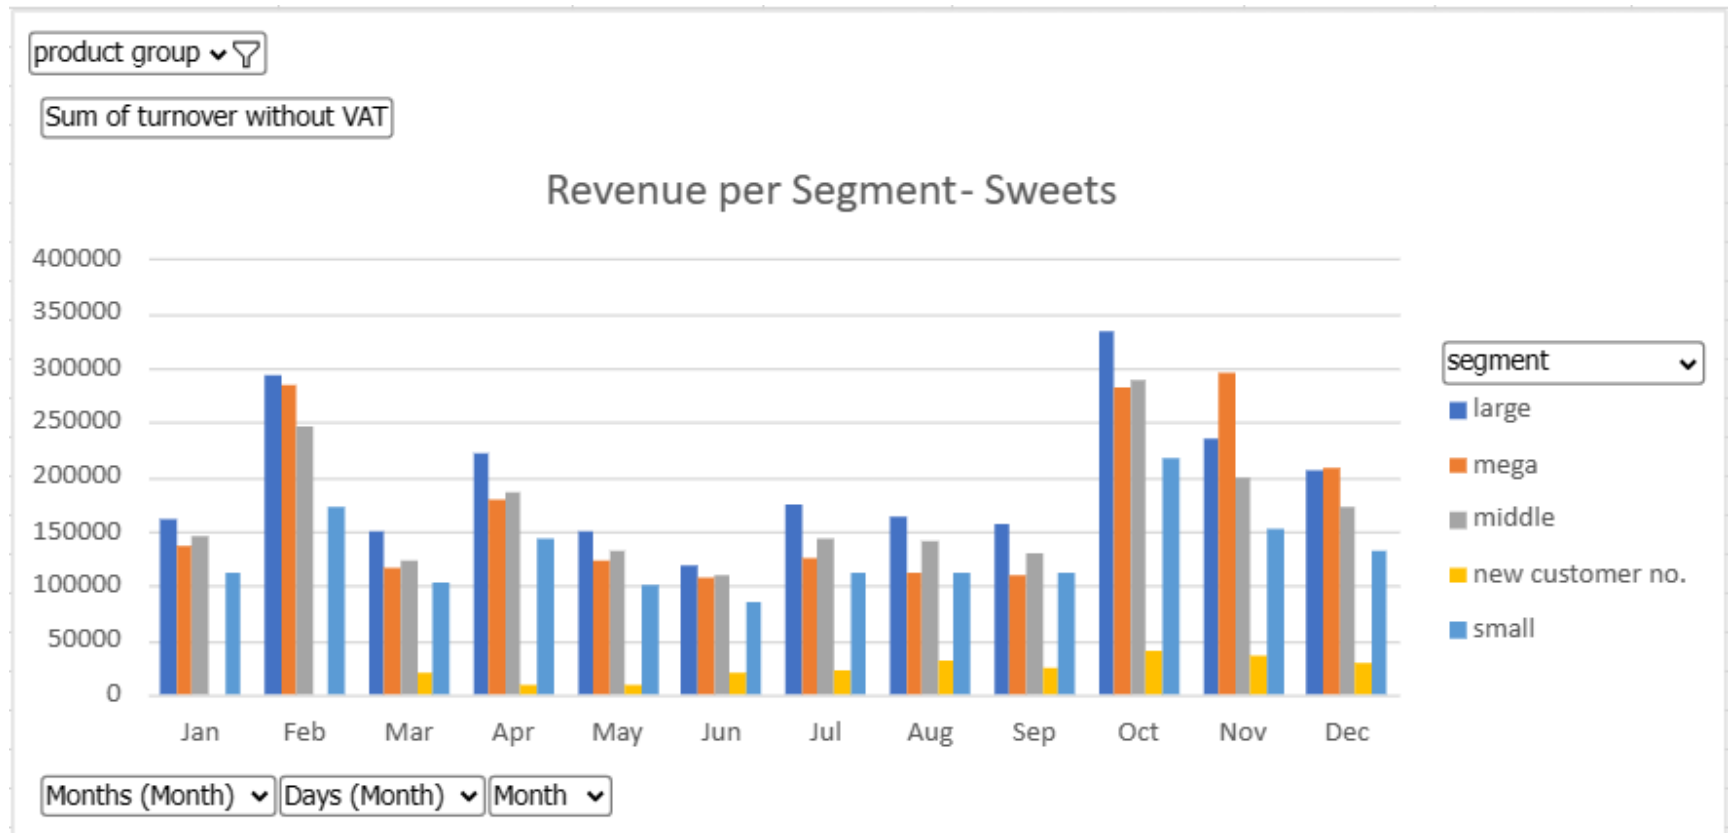

Revenue Trend Analysis

Recommendations (Based on data)

Recommendations:

- Implementing dynamic pricing strategy and promotional offers between January to March due to the low revenue growth rate for wine
- For mega and large customers, optimizing inventory levels for wine from week 12 based on Easter (Week 15) sales
- For small and medium implement discount and promotional offers from week 12 to improve Easter sales
- Based on the low revenue growth rate, we can cross check other brands for cosmetics to identify areas for potential cost reduction without compromising product or service quality.
- Introducing combo packages for sweet and cosmetics focusing on carnival events (weeks 5-8) and Halloween (weeks 40 -42)to make more sales for cosmetics

Recommendations (General)

Recommendations:

- Collect customer and consumer feedback to understand areas for improvement and asking consumer feedback
- Investigation through the anomaly data with the responsible person in the store
